

Outshine the Ordinary.

Discover premium paint protection
for more gloss, depth and brilliance.

ORAFOL

“We didn’t want to choose between outstanding protection and outstanding appearance. So we engineered both.”

Dr. Holger Loclair
Chairman & Chief Executive Officer

The ORAGUARD® Vantage Promise.
Great paint deserves greater gloss.

Your car already knows how to shine. ORAGUARD® Vantage takes it further. The premium paint protection film enhances gloss, depth and brilliance while protecting the paint against stone chips, scratches, dirt, chemicals, environmental influences and the challenges of everyday driving. Its self-healing top coating helps maintain a premium appearance over time.

→ More gloss. More brilliance. Advanced protection.

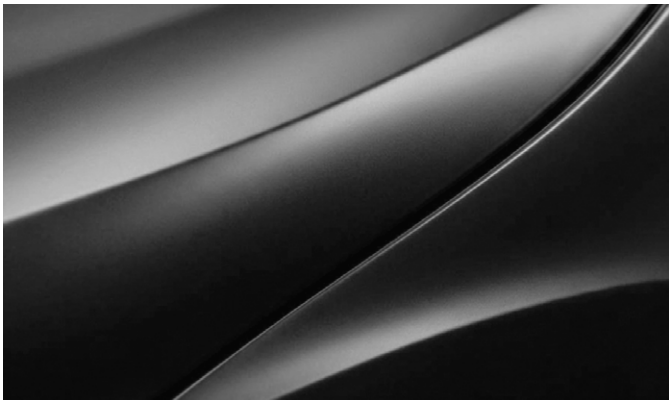
Brilliance, amplified.
Because shiny was only the beginning.

Gloss is more than shine. It is depth, reflection and the way light moves across every curve. To capture the unique beauty of every car, ORAGUARD® Vantage is available in different finishes.

→ Every curve. Every reflection. Elevated.

Transparent Gloss
Enhances the brilliance and visual depth of your car's paint while protecting the beauty beneath.

Transparent Matte
Combines premium protection with an elegant matte finish for a more understated look.



Performance starts before installation.

Every detail is designed for reliable performance – including the flexible cap sheet, which protects the film from dust and mechanical impact during transport, storage, plotting and installation. Clearly visible plotter lines support easy handling and precise processing for an excellent, consistent surface finish. And that performance comes in two versions:

ORAGUARD® Vantage Pro
7-year warranty.
Available in Transparent Gloss, Transparent Matte and selected ORAFOL colors.

ORAGUARD® Vantage Elite
10-year warranty.
Available in Transparent Gloss and Transparent Matte.

Professional features:

- → **Flexible cap sheet**
  Surface protection during plotting and installation.
- → **High elasticity & repositionability**
  Controlled application across complex contours.
- → **Plotter-optimized processing**
  For precise computer-aided cutting.
- → **Self-healing top coating**
  High resistance to scratches, dirt and chemicals.
- → **Low surface friction**
  For smooth, efficient squeegeeing.
- → **Installer-friendly adhesive system**
  Helps reduce adhesive stretch marks.

Beauty worth protecting.
Because great looks should last.

Every drive leaves an impression. Your paint doesn't have to show it. ORAGUARD® Vantage is made to preserve the exceptional appearance of your car – keeping its finish looking refined and ready for every road ahead.

→ **The gloss gets the attention. The protection takes care of the rest.**

01

Self-healing surface
For maintaining a premium appearance.

02

Stone-chip protection
For the roads ahead.

03

Scratch resistance
For lasting beauty.

04

Dirt & chemical resistance
For protection beyond the obvious.

Excellent Performance.
Made in Germany.

ORAGUARD® Vantage is created and manufactured within the ORAFOL Group – from material development and film production to coating and other key process steps. It is suitable for vehicles of all brands and meets defined industry requirements, including VW TL 52428, Daimler DBL 7379 and FORD WSS-M99J291-B2.
